

Guest Lecture on Goal Setting

By Mr. Prathamesh Veiling,
Founder & Director of Magic Institute of Excellence

On 22nd July 2017

IIBM organized a guest lecture for students of SYMMS 2016-18 Batch on Goal Setting and by Mr. Prathamesh Veiling, (Founder & Director of Magic Institute of Excellence). Unlike many other seminars on Goals setting and planning your future, this one was unusual and surprisingly the best one that we ever attended. Surprising because, normally all Goal Setting speeches have similar characteristics and a similar tone of delivery, but this one blew our minds and pierced our hearts at the right spot.

A big pause and a deep breath, the questions that were asked pierced like a double edged sword. Few of the questions asked were-

1. Are you happy and satisfied?
2. Are you growing or ageing?
3. Are you grabbing information or knowledge?
4. Are you pursuing a MBA or becoming an MBA?

These questions made us rewind and rethink about our past, present and future. What is it that we are made for? What is our purpose, our passion? Where are we walking? Are we walking towards a dark end in the hopes of a bright future?

This seminar made us realize that it is very important for all of us to have a target in life. The conductors of this seminar got us tarts (arrows) and asked us to hit, we were very clueless, our minds asked questions like where to hit and what to hit. Similarly, when we walk on our career paths, it is important for us to know where we are walking and why are we walking on that path.

The seminar also taught us to shift our life gears at the right time to win the race, by showing us a video clip on how Amir Khan shifted his cycle gears and won the race in the movie 'Jo Jita Wohi Sikandar'. We also need to have focus, this point was supported by another video clip where there happened to be a super bowl (tie) in one of the India-Pakistan World Cup Match of 2007, and India bowled out Pakistan. The reason India won was a good focus and lot of practice, they were prepared for the worst.

Every day that we waste we lose one green note from our pocket that means time is money. The last but not the least, the biggest Battle to fight is the Battle against your own self, i.e. 'YOU v/s YOU'. With lots of gratitude, acknowledgement and with a teary eye when the session ended we shouted our hearts out "I AM THE GREATEST I AM THE CHAMPION".
