

## **Outdoor Management Training Program 12<sup>th</sup> August 2017**

### **Team Building an Important Investment at IIBM**

Eventually, most of us grow up, find careers and settle in. Not a bad thing. But often, we also lose our ability to open up and have fun. And we actually become less effective on the job. Done right, the power of play can help – often dramatically. A team that works well together understands the strengths and weaknesses of each team member. One of the benefits of strong teamwork in the workplace or in college is that team leaders and members become proficient at dividing up tasks so they are done by the most qualified and capable people. Team bonding brings people together by encouraging collaboration and teamwork. People on your team are asked to think about the implications of these activities at their workplace. One of the most powerful reasons for team building is to get results. Through a series of planned team bonding events that are fun and motivational, teams build skills like communication, planning, problem-solving and conflict resolution.

Learning from experiences is a powerful method, Not only in closed classroom but also through outdoor activities we at IIBM help the future managers shed their inhibitions and be better prepared for the corporate world.

The true value of teambuilding is found in the application of the activities your people will experience and how they are then used as an enjoyable, memorable and impactful tool to drive home a key idea or message that your team needs to internalize.

IIBM is a college which has set an example in Navi-Mumbai by organizing an Outdoor Management Training for the F.Y.M.M.S students outside campus at Haware Fantasia Mall, Business Park, Vashi.

It was a Cricket League consisting of 10 teams & a total of 9 matches of 4 overs each which was played in a turf ground. The event started at 10am. After an energetic and enthusiastic session in the morning, students were given a lunch break. Post lunch semi-finals and finals were played. All students were cheering, enjoying and learning management skills throughout the session which added to their experience apart from the bookish knowledge. Staffs of IIBM had also joined to add colour to the event which motivated the students to a lot of extent. As a part of appreciation and motivation winning team was given a rolling trophy. It was fun as well as a learning experience for the students.

The Learning Objectives:

- Ice Breaking.
- Team Building
- Effective Communication
- Positive Change in Outlook
- Builds Trust
- Increases Problem Solving Skills.
- Promotes individual and group growth with fun and memorable experiences
