

Guest Lecture on Industry Expectation from Fresher's

By Mr. Hemkiran Jagtap,
Head-HR, HR leader & Transformation Enabler

On 24th August 2017

IIBM organized a guest lecture for students of SYMMS 2016-18 Batch on Industry Expectation from Fresher's and by Mr. Hemkiran Jagtap, (Head-HR, HR leader & Transformation Enabler). Being SYMMS students it is necessary to know what the industry expects so that students can groom themselves according to the need. When interviews are conducted, the point of contact between the fresher and recruiter is a crucial moment where we are being judged intensively. It's a nerve breaking situation and sometimes very stressful, cause of which we cannot deliver to our potential. This session was very important for preparing as to; how to face an interview and what are the things that we should avoid doing, in any interview. This session gave confidence and groomed students for facing the ultimate goal of cracking an interview. The knowledge that we acquired during this session was really helpful and the tips are jotted down in our hearts. Thanking the institute for taking the initiative for preparing us before the placement season starts.
